ALAMOD project animation

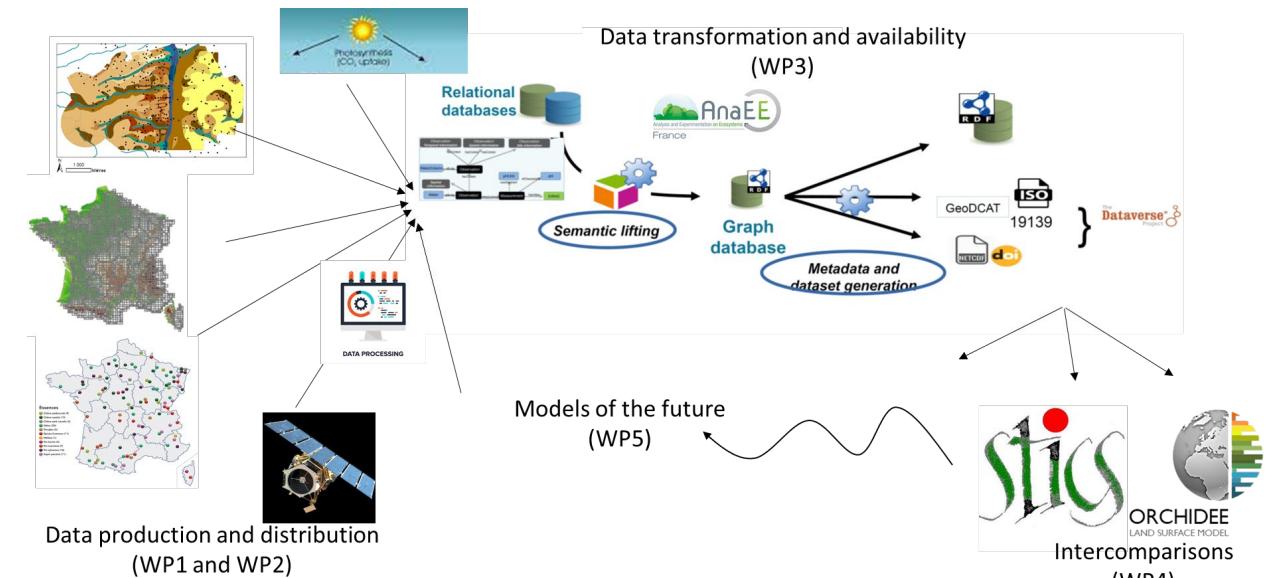

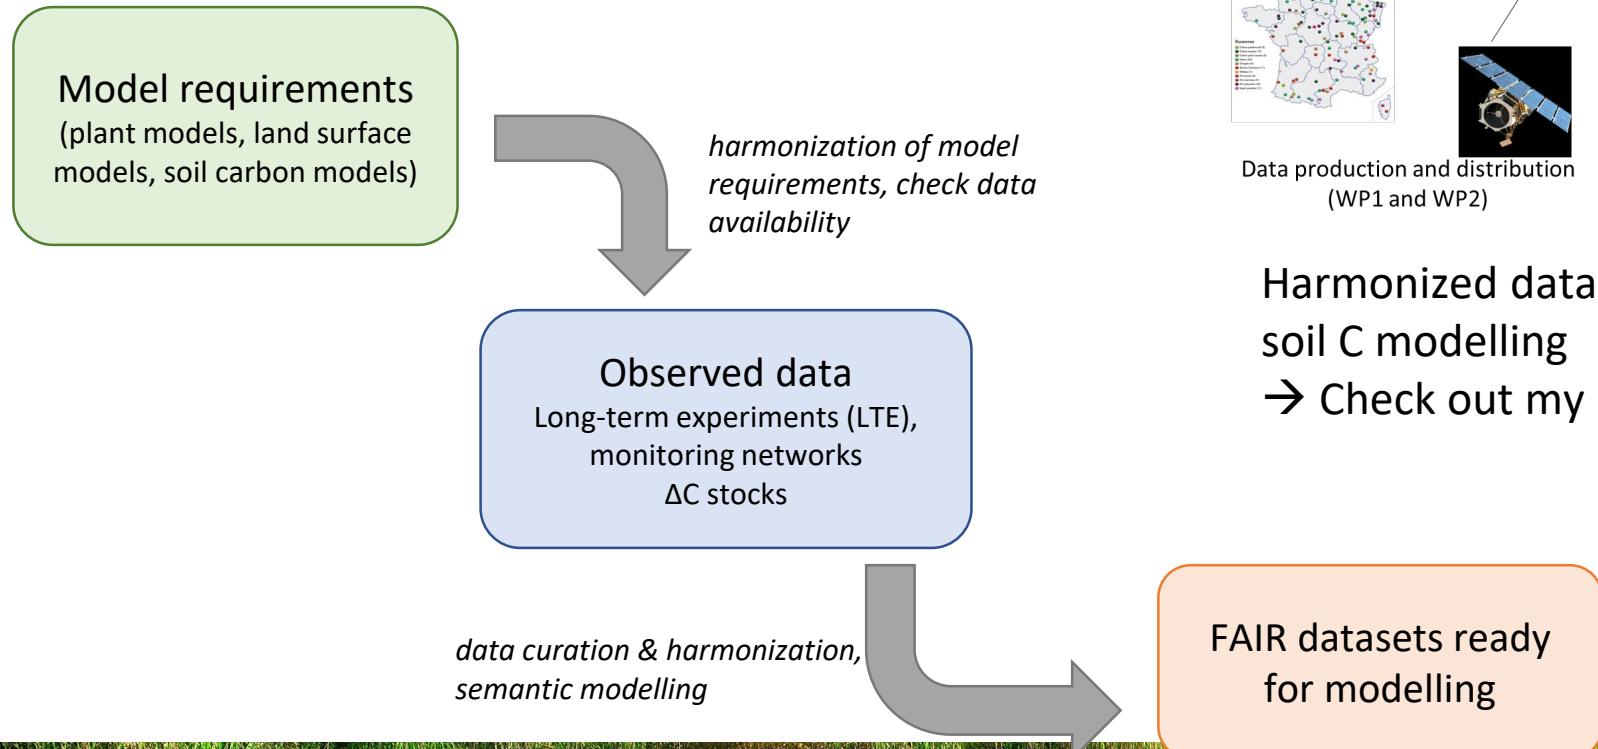

Kenji FUJISAKI – INRAE Info&Sols, Orléans

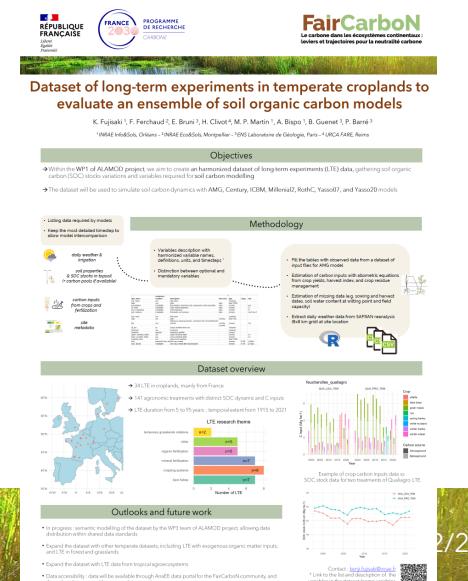

My missions in the ALAMOD project

→ Connection between observed data, data interoperability, and carbon modelling in soil and biomass

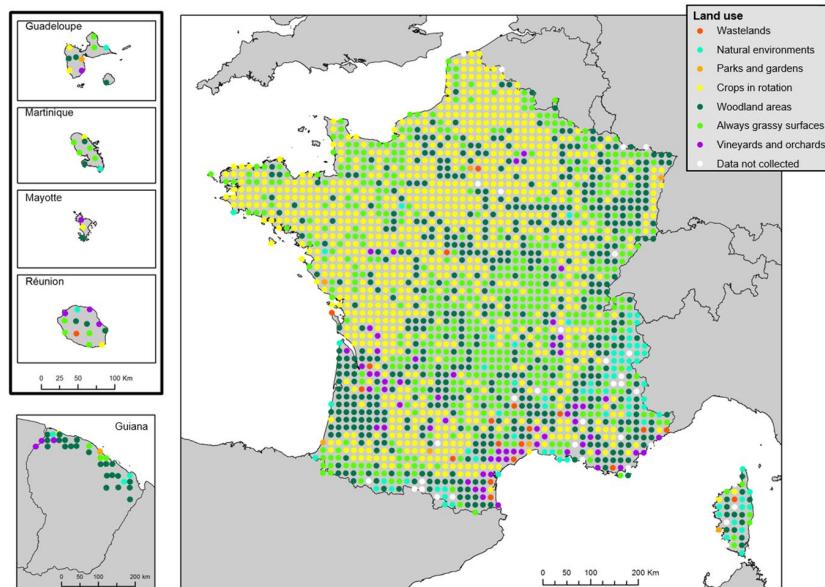

Harmonized dataset of LTE data for
soil C modelling
→ Check out my poster tonight !

My missions in the ALAMOD project

→ Coordination of Info&Sols team involved in ALAMOD project

Gather and share soil carbon data, biomass data and management practices from agricultural and forest sites of the French Soil Quality Monitoring Network (RMQS)
